

K-LOVE is broadcasted to us in San Antonio, Texas, on 91.3 FM. I recently found out that we may lose this station due to the new proposal to expand LPFM stations. K-LOVE is an active resident of our community. They provide commercial-free Christian music and help to promote Christian functions in the city (regardless of denomination). K-LOVE is the only Christian music radio station we have . . . the other Christian stations only play sermons and hymns. I believe that K-LOVE provides a valuable service to our community. They have a large listening audience in San Antonio, which has been proven during their pledge drives (I am a financial supporter). . . San Antonio is always one of the first cities to meet their goal. In turn, K-LOVE has invested in San Antonio by spending money to purchase a larger tower in our area so that the station can be reached in surrounding areas. I'm not sure how long they've been on the air, but I've been listening to K-LOVE for the past four years. K-LOVE has been a blessing to me and my family . . . please do not take it away from us.
